

Patti Hansen

A model since the age of 16, Hansen, the body of the 1970's and wife of the Rolling Stones' Keith Richards, is a survivor of both breast and bladder cancer. The 55 year old says she's become more interested in organic beauty products and nutrition: "Now everyone is more aware of what we're putting on and in our bodies."

What's your skin-care routine?
"For me, it's very basic. I use my dermatologist's products and **Tracie Martyn's Firming Serum.**"
